4 date of the enactment of this Act, the Secretary of the De-  
5 partment of Defense shall submit to the Committees on  
6 Armed Services of the Senate and House of Representatives

15 **SEC. 325. OBJECTIVES, PERFORMANCE STANDARDS, AND**  
16 **CRITERIA FOR USE OF WILDLIFE CONSERVA-**  
17 **TION BANKING PROGRAMS.**

18 (a) *IN GENERAL.*—To ensure opportunities for De-  
19 partment of Defense participation in wildlife conservation  
20 banking programs pursuant to section 2694c of title 10,  
21 United States Code, the Secretary of the Interior, acting  
22 through the Director of the United States Fish and Wildlife  
23 Service, shall issue regulations of general applicability es-  
24 tablishing objectives, measurable performance standards,  
25 and criteria for use, consistent with the Endangered Species  
26 Act (16 U.S.C. 1531 et seq.), for mitigation banking offset-

1 *ting effects on a species, or habitat of such species, that is*  
2 *endangered, threatened, a candidate for listing, or otherwise*  
3 *at risk under such Act. To the maximum extent practicable,*  
4 *the regulatory standards and criteria shall maximize avail-*  
5 *able credits and opportunities for mitigation, provide flexi-*  
6 *bility for characteristics of various species, and apply*  
7 *equivalent standards and criteria to all mitigation banks.*

8       **(b) DEADLINE FOR REGULATIONS.**—*The Secretary of*  
9 *the Interior, acting through the Director of the United*  
10 *States Fish and Wildlife Service, shall publish an advance*  
11 *notice of proposed rulemaking for the regulations required*  
12 *by subsection (a) by not later than one year after the date*  
13 *of the enactment of this Act.*

14 **SEC. 326. OFFSHORE WIND ENERGY DEVELOPMENT, MORRO**  
15 **BAY, CALIFORNIA.**

16       **(a) FINDINGS.**—*Congress makes the following findings:*

17               **(1)** *Since 2016, the Department of Defense and*  
18 *Department of the Navy have been working with*  
19 *State and Federal stakeholders to determine whether*  
20 *a commercial lease for the development of renewable*  
21 *energy off the coast of Morro Bay, California could be*  
22 *developed in a manner that is compatible with the*  
23 *training and readiness requirements of the Depart-*  
24 *ment of Defense.*

1           (2) *Military readiness and the ability to conduct*  
2 *realistic training are critical to our national security;*  
3 *however, energy security and other ocean uses are also*  
4 *important. These interests should be balanced to the*  
5 *extent practicable when analyzing offshore energy*  
6 *proposals.*

7           (3) *In August 2019, Members of Congress, the*  
8 *Assistant Secretary of Defense for Sustainment, sen-*  
9 *ior officials from other Federal agencies, and state*  
10 *and local elected representatives met to discuss a path*  
11 *forward to accommodate wind energy development off*  
12 *the Central Coast of California while ensuring the De-*  
13 *partment of Defense was able to continue meeting its*  
14 *testing, training, and operational requirements.*

15           (4) *Following the initial meeting in August*  
16 *2019, the stakeholder group continued meeting at*  
17 *roughly monthly intervals through 2019 and into*  
18 *2020 to discuss options and work towards a mutually*  
19 *agreeable solution for renewable energy development*  
20 *and continued military testing, training, and oper-*  
21 *ational requirements off the Central Coast of Cali-*  
22 *fornia.*

23           (5) *In May 2020, the Assistant Secretary of the*  
24 *Navy for Energy, Installations, and Environment no-*  
25 *tified stakeholders that despite the previous year of*

1        *negotiations, it was his view any wind energy devel-*  
2        *opments off the Central Coast of California may not*  
3        *be viewed as being compatible with military activi-*  
4        *ties. This unilateral decision was made abruptly,*  
5        *without providing any supporting analysis or ac-*  
6        *knowledgment of the progress and commitments made*  
7        *during previous negotiations, and was not in the*  
8        *spirit of cooperation and collaboration that had driv-*  
9        *en the previous nine months of stakeholder engage-*  
10       *ments.*

11            *(6) Stakeholder confidence in the Department of*  
12        *Defense review process is paramount. Abrupt and*  
13        *unilateral changes of course erode confidence and un-*  
14        *dermine the State, local, and industry trust in a fair,*  
15        *transparent, and predictable adjudication of potential*  
16        *conflicts.*

17            *(7) In early 2019, in order to create continuity*  
18        *between the offshore and terrestrial processes, the De-*  
19        *partment of Defense consolidated its review of pro-*  
20        *posed energy development projects so that offshore en-*  
21        *ergy proposals were now included in the Military*  
22        *Aviation and Installation Assurance Clearinghouse*  
23        *(the Clearinghouse). The Clearinghouse has a proven*  
24        *record for reviewing proposed energy development*  
25        *projects through a fair and transparent process. The*

1 *Morro Bay proposal pre-dates this consolidation but*  
2 *underwent a similar Department of Defense led com-*  
3 *patibility review.*

4 (8) *Congress has generally supported the trans-*  
5 *parent and fair Clearinghouse review process, as well*  
6 *as all efforts between the Department of Defense and*  
7 *other stakeholders to reach solutions that allow for the*  
8 *development of energy projects in a manner that is*  
9 *compatible with military testing, training, and oper-*  
10 *ational requirements.*

11 (9) *Legislating a solution to a specific energy de-*  
12 *velopment proposal should only be reserved for rare*  
13 *occasions. Due to Navy's abrupt and unilateral deci-*  
14 *sion to walk away from productive negotiations, after*  
15 *months of good-faith efforts by other stakeholders and*  
16 *public engagement, the threshold for congressional*  
17 *intervention has been reached.*

18 (b) *RESPONSIBILITY.*—*All interaction on behalf of the*  
19 *Department of the Navy with the California Energy Com-*  
20 *mission, Federal agencies, State and local governments, and*  
21 *potential energy developers regarding proposed offshore*  
22 *wind energy off the central coast of California shall be per-*  
23 *formed through the Office of the Under Secretary of Defense*  
24 *for Acquisition and Sustainment.*

25 (c) *BRIEFING REQUIREMENT; LIMITATION.*—

1           (1) *BRIEFING.*—Not later than 180 days after  
2           the date of the enactment of this Act, the Secretary of  
3           Defense shall provide to the Committees on Armed  
4           Services and the Committee on Natural Resources of  
5           the House of Representatives a briefing on status of  
6           the review by the Offshore Energy Working Group of  
7           the request to locate at least two offshore wind lease  
8           areas proximate to and within the Morro Bay Call  
9           Area. Such briefing shall include—

10                   (A) a detailed map that shows any areas  
11                   identified;

12                   (B) proposed mitigations that would enable  
13                   compatible development in the areas identified;

14                   (C) any unresolved issues; and

15                   (D) any other terms of the agreement  
16                   reached with the California Energy Commission,  
17                   other Federal agencies, State and local govern-  
18                   ments, and potential energy developers.

19           (2) *LIMITATION.*—The Secretary of Defense may  
20           not issue a final offshore wind assessment that pro-  
21           poses wind exclusion areas and may not object to an  
22           offshore energy project in the Central Coast of Cali-  
23           fornia that has filed for review by the Military Avia-  
24           tion and Installation Assurance Clearinghouse until

1        *the Secretary provides the briefing required under*  
2        *paragraph (1).*

3        *(d) LIMITATION ON USE OF FUNDS.—Of the amounts*  
4        *authorized to be appropriated by this Act or otherwise made*  
5        *available for the Department of Defense for fiscal year 2021,*  
6        *not more than 75 percent may be obligated or expended for*  
7        *the Office of the Assistant Secretary of the Navy for Energy,*  
8        *Installations, and Environment until the date that is 30*  
9        *days after the date on which the briefing required under*  
10       *subsection (c)(1) is provided.*

23        *(a), the Director may—*

24                    *(1) ensure a range of technology types;*

25                    *(2) ensure regional diversity among projects; and*

1           (3) *consider bulk power level, distribution power*  
2 *level, behind-the-meter, microgrid (grid-connected or*  
3 *islanded mode), and off-grid applications.*

4           (c) *JOINT PROGRAM.—*

5           (1) *ESTABLISHMENT.—As part of the demonstra-*  
6 *tion initiative under subsection (a), the Director, in*  
7 *consultation with the Secretary of Energy, may estab-*  
8 *lish within the Department of Defense a joint pro-*  
9 *gram to carry out projects—*

10                   (A) *to demonstrate promising long-duration*  
11 *energy storage technologies at different scales to*  
12 *promote energy resiliency; and*

13                   (B) *to help new, innovative long-duration*  
14 *energy storage technologies become commercially*  
15 *viable.*

16           (2) *MEMORANDUM OF UNDERSTANDING.—Not*  
17 *later than 200 days after the date of enactment of this*  
18 *Act, the Director may enter into a memorandum of*  
19 *understanding with the Secretary of Energy to ad-*  
20 *minister the joint program.*

21           (3) *INFRASTRUCTURE.—In carrying out the joint*  
22 *program, the Director and the Secretary of Energy*  
23 *may—*

24                   (A) *use existing test-bed infrastructure at—*

1                   (i) installations of the Department of  
2                   Defense; and

3                   (ii) facilities of the Department of En-  
4                   ergy; and

5                   (B) develop new infrastructure for identi-  
6                   fied projects, if appropriate.

7                   (4) GOALS AND METRICS.—The Director and the  
8                   Secretary of Energy may develop goals and metrics  
9                   for technological progress under the joint program  
10                  consistent with energy resilience and energy security  
11                  policies.

12                  (5) SELECTION OF PROJECTS.—

13                  (A) IN GENERAL.—To the maximum extent  
14                  practicable, in selecting projects to participate in  
15                  the joint program, the Director and the Sec-  
16                  retary of Energy may—

17                         (i) ensure that projects are carried out

9           It is the sense of Congress that—

10           (1) the Peshmerga of the Kurdistan Region of  
11           Iraq have made, and continue to make, significant  
12           contributions to the security of Northern Iraq, by de-  
13           fending nearly 650 miles of critical terrain, to de-  
14           grade, dismantle, and ultimately defeat the Islamic  
15           State of Iraq and Syria (ISIS) in Iraq as a partner  
16           in Operation Inherent Resolve;

17           (2) although ISIS has been severely degraded,  
18           their ideology and combatants still linger and pose a  
19           threat of resurgence if regional security is not sus-  
20           tained;

21           (3) a strong Peshmerga and Kurdistan Regional  
22           Government is critical to maintaining a stable and  
23           tolerant Iraq in which all faiths, sects, and ethnicities  
24           are afforded equal protection under the law and full  
25           integration into the Government and society of Iraq;

1           (4) continued security assistance, as appropriate,  
2           to the Ministry of Peshmerga Affairs of the Kurdistan  
3           Region of Iraq in support of counter-ISIS operations,  
4           in coordination with the Government of Iraq, is crit-  
5           ical to United States national security interests; and

6           (5) continued United States support to the  
7           Peshmerga, coupled with security sector reform in the  
8           region, will enable them to more effectively partner  
9           with other elements of the Iraqi Security Forces, the  
10          United States, and other coalition members to consoli-  
11          date gains, hold territory, and protect infrastructure  
12          from ISIS and its affiliates in an effort to deal a  
13          lasting defeat to ISIS and prevent its reemergence in

25        *(a) FINDINGS.—Congress finds the following:*

1           (1) *On April 19, 2020, the Federal Communica-*  
2           *tions Commission issued an order and authorization*  
3           *granting Ligado Networks LLC the authority to oper-*

20          (4) *In a letter to the Committee on Armed Serv-*  
21          *ices of the House of Representatives dated May 21,*  
22          *2020, Ligado Networks LLC reaffirmed the commit-*  
23          *ment to bear the costs to the Department of Defense,*

3        *burden” and “Make no mistake: the obligation is*  
4        *ours, and the burden falls solely on our company.”.*

5        *(b) PROHIBITION.—Except as provided by subsection*  
6        *(c), none of the funds authorized to be appropriated by this*  
7        *Act or otherwise made available for fiscal year 2021 or any*  
8        *subsequent fiscal year for the Department of Defense may*  
9        *be obligated or expended to retrofit any Global Positioning*  
10       *System device or system, or network that uses the Global*

13       *megahertz band, the 1627.5–1637.5 megahertz band, or the*  
14       *1646.5–1656.5 megahertz band.*

15       *(c) ACTIONS NOT PROHIBITED.—The prohibition in*  
16       *subsection (a) shall not apply to any action taken by the*

1 **SEC. 1610. REPORT ON RESILIENT PROTECTED COMMU-**  
2 **NICATIONS SATELLITES.**

3 (a) *FINDINGS.—Congress finds the following:*

4 (1) *The national command, control, and commu-*  
5 *nications system of the Department of Defense is es-*  
6 *sential to the national security of the United States.*

7 (2) *The Department of Defense requires the space*  
8 *segments of such system to be resilient and survivable*  
9 *to address advanced threats from Russia and China.*

10 (3) *The next-generation overhead persistent in-*  
11 *frared missile warning satellites are being upgraded*  
12 *with enhanced resiliency features to make them much*  
13 *less vulnerable to attack and will begin launch in*  
14 *2025.*

15 (4) *Because missile warning satellites rely on*  
16 *protected communications satellites to relay warnings*  
17 *and response orders, the next-generation overhead per-*  
18 *sistent infrared missile warning satellites will require*  
19 *protected communications satellites with enhanced re-*  
20 *siliency features, however, the current plan of the*  
21 *Space Force is to provide those capabilities with the*  
22 *evolved strategic satellite communications program*  
23 *that will not be available until 2032 or later.*

24 (5) *As a result, the Chief of Space Operations*  
25 *should implement an accelerated plan to achieve more*

1        *resilient protected communications satellites without*  
2        *delay.*

3        (b) *REPORT.*—*Not later than 60 days after the date*  
4        *of the enactment of this Act, the Chief of Space Operations*  
5        *shall submit to the congressional defense committees a re-*

11 surance of such critical defense facilities are para-  
12 mount to maintaining national defense and force pro-  
13 jection capabilities at all times; and

14           (3) face unique electric energy supply, delivery,  
15 and distribution challenges that, based on the geo-

1 **DIVISION E—NATIONAL ARTIFICIAL INTELLIGENCE INITIATIVE ACT OF 2020**

2 **SEC. 5001. SHORT TITLE.**

3 *This division may be cited as the “National Artificial Intelligence Initiative Act of 2020”.*

4 **SEC. 5002. FINDINGS.**

5 *Congress finds the following:*

1           (1) *Artificial intelligence is a tool that has the*  
2           *potential to change and possibly transform every sec-*  
3           *tor of the United States economy and society.*

4           (2) *The Federal Government should continue to*  
5           *play an important role advancing research, develop-*  
6           *ment, standards, and education activities in artificial*  
7           *intelligence through coordination and collaboration*  
8           *between government, academia, and the private sector*  
9           *to leverage the intellectual, physical, and digital re-*  
10          *sources of each stakeholder.*

11          (3) *The Federal Government lacks clear under-*  
12          *standing of the capabilities of artificial intelligence*  
13          *and its potential to affect various social and economic*  
14          *sectors, including ethical concerns, national security*  
15          *implications, and workforce impacts.*

16          (4) *Researchers from academia, Federal labora-*  
17          *tories, and much of the private sector have limited ac-*  
18          *cess to many high-quality datasets, computing re-*  
19          *sources, or real-world testing environments to design*  
20          *and deploy safe and trustworthy artificial intelligence*  
21          *systems.*

22          (5) *There is a lack of standards and*  
23          *benchmarking for artificial intelligence systems that*  
24          *academia and the public and private sectors can use*

1        *to evaluate the performance of these systems before*  
2        *and after deployment.*

3                *(6) Artificial intelligence is increasingly becom-*  
4        *ing a highly interdisciplinary field with expertise re-*  
5        *quired from a diverse range of scientific and other*  
6        *scholarly disciplines that traditionally work inde-*  
7        *pendently and continue to face cultural and institu-*  
8        *tional barriers to large scale collaboration.*

9                *(7) Current Federal investments and funding*  
10        *mechanisms are largely insufficient to incentivize and*  
11        *support the large-scale interdisciplinary and public-*  
12        *private collaborations that will be required to advance*  
13        *trustworthy artificial intelligence systems in the*  
14        *United States.*

15                *(8) The United States education pipeline for ar-*  
16        *tificial intelligence fields faces significant challenges.*  
17        *Not only does the artificial intelligence research field*  
18        *lack the gender and racial diversity of the American*  
19        *population as a whole, but it is failing to both retain*  
20        *researchers and adequately support educators to meet*  
21        *the demands of the next generation of students study-*  
22        *ing artificial intelligence.*

23                *(9) In order to help drive forward advances in*  
24        *trustworthy artificial intelligence across all sectors*  
25        *and to the benefit of all Americans, the Federal Gov-*

1        *ernment must provide sufficient resources and use its*  
2        *convening power to facilitate the growth of artificial*  
3        *intelligence human capital, research, and innovation*  
4        *capacity in academia and other nonprofit research*  
5        *organizations, companies of all sizes and across all*  
6        *sectors, and within the Federal Government.*
